

AIR ADJUST™ ROW CLEANER FOR 60/90 OPENERS

Easily adjust up and down pressure from the cab with the 2966-004 Air Adjust Row Cleaner for John Deere 60/90 Openers, powered by the Air Adjust In-Cab Controller.

- » Air Adjust technology creates the ideal ride for the floating row cleaner
- » Up and down pressure adjusts via five preset buttons
- » Moves residue in front of the blade and seed boot to reduce hairpinning and clear the area—warming soil and improving emergence
- » Mounts directly to the seed opener cast arm
- » Raise units with the push of a button for wet areas and other conditions as needed
- » Controlled by an iPad, tablet, or ISOBUS

THE ORIGINAL

2966-003 ROW CLEANER FOR JOHN DEERE 60/90 OPENERS

**Residue management.
Better emergence.**

This floating single-wheel row cleaner mounts directly to the seed opener cast arm and easily follows soil contour. Because it operates in front of the opener blade and seed boot, the row cleaner reduces hairpinning as it clears away residue. Soil warms more quickly, which facilitates better emergence.
