

# AUGER ACE™

The Ace in the hole for auger control

**EVERY FARMER LOVES A SAFE SOLUTION THAT ALSO SAVES TIME.**

With the push of a lever, the Auger Ace™ easily aligns augers and conveyor discharge spouts with storage containers or bin intake holes.

## **AUGER ACE** *patent pending*

- Hydraulic cylinder allows for quick and easy side-to-side leveling of auger tube in relation to the storage container or bin intake hole from tractor seat
- Features universal mounting brackets for grain and fertilizer augers and conveyors
- Save time centering auger or conveyor with push of lever
